

Avira Antivirus Pro – Business Edition

“IT security doesn’t have to come at a high price – neither in terms of time nor money.”

The smart all-round security solution for businesses.

WHY CHOOSE ANTIVIRUS PRO – BUSINESS EDITION?

MAXIMUM PROTECTION AGAINST MALWARE

- **Real-Time Threat Prevention**
Signature-based detection, heuristic analysis, and cloud-based scanning offer you complete protection against malware.
- **Enhanced Network Drive Protection**
Antivirus Pro prevents malware from being stored or spread via your internal network or a shared cloud-based storage solution.
- **Advanced Web Protection**
Phishing scams, infected websites, drive-by downloads... Antivirus Pro ensures employees never land on harmful websites.
- **Email Protection**
Antivirus Pro scans locally installed email clients so that employees neither receive malware nor spread it to colleagues, customers, or patients.

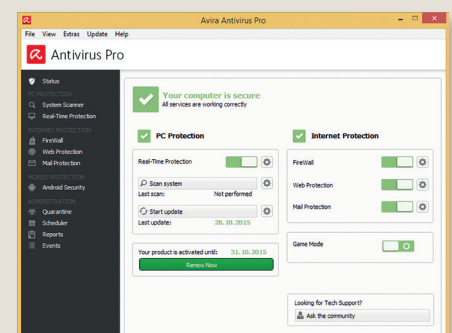

TOP PERFORMANCE

- **Resource-light**
Even with powerful antivirus technology running, your servers maintain their peak performance under heavy loads.
- **Centralized Management**
All Avira-secured devices can effortlessly be managed from an intuitive online dashboard.
- **Mobile Device Management**
Smartphones equipped with an Avira mobile app can be tracked from the dashboard and anti-theft safeguards can be triggered remotely.
- **No maintenance costs**
No maintenance or other hidden costs. Avira doesn't interfere with server uptime or availability. Outstanding customer support is there when you need it and included in the service.

The success of your business is largely dependent on how secure your PCs, laptops, and tablets are and, as a result, how you protect your customers' data. Avira Antivirus Pro supports you with award-winning, next-generation Avira security technology – reliable, tried and tested by millions of IT users, and a prime example of German engineering.

This software offers convenient, centralized management and recognizes malware attacks from the outset thanks to cloud-based real-time protection.

No matter what files your employees open, or where and how they work with the Internet, using Avira Antivirus Pro means you never need to worry about cyber threats again.
