

Consumer Products 2017

Avira's security solutions are based on one of the world's most cutting-edge antivirus protection systems. With advanced heuristics combined with a powerful Protection Cloud, they offer many extras for enhanced comfort and protect users so that they can move about freely and with ease of mind in the digital world.

Virus protection for Windows & Mac

Antivirus scanner: Stops all types of viruses, worms, Trojans, etc.
Protection cloud technology: Protects against new threats in real-time
Secure banking and shopping: Protects your confidential banking and credit card details
Protection against Ransomware: Prevents blackmail software from encrypting your data and making it inaccessible to you
Web/mail protection: Blocks website-based malware, monitors unsecured and unencrypted email traffic
Network drive protection: Checks shared folders for harmful programs
Device protection: Devices connected via the USB port can be examined for malware and be blocked
Firewall Manager (Windows only): Allows you to configure the Windows Firewall and prevents unauthorized access to your PC (such as by botnets)
