# modusGate Email Protection 6.5
## Keep Users Protected From the Latest Social Engineering Tactics

## Core Concepts

➤ **Malicious URL Scan that protects against hosted malicious content linked in emails**

➤ **Display Name Phishing Protection that allows for enhanced protection from spoofing attacks using specified high-authority user addresses**

➤ **DMARC Reporting for enhanced analysis of mailflow data generated by DMARC policies**

➤ **Updated Avira and Bitdefender AV Engines for premium protection**

➤ **Population and Authentication for Office 365 AD**

➤ **An updated User Interface that gives admins and partners easier management and control!**

## What You Gain

➤ **With modusGate, you get the essential, market-leading filtering you need with advanced threat protection features and DMARC capabilities that stop the most popular, fastest-growing attacks in their tracks**

modusGate Email Security is backed by decades of experience successfully filtering email and stopping advanced threats. Now including Malicious URL Scan, Display Name Phishing Protection, DMARC Reporting and a brand new Threat Dashboard that all contribute to maximize the effectiveness and usability of on-premise email security for customers and partners in the years to come.

## What are the benefits of modusGate 6.5?

*Maintain your domain's authority while protecting against modern threats:*

**Affordable Protection from Advanced Threats:** modusGate offers Anti-Spam, Anti-Malware, Targeted Phishing Protection, a directQuarantine Outlook Plugin and more to provide your organization's users with the most efficient filtering possible. With the addition of a Malicious URL Scan, Display Name Phishing Protection and updated Dual-AV – all providing you up-to-the-minute intelligence through a brand new Threat Dashboard – means your organization will be ready for the rash of malicious content, targeted phishing attacks and email fraud that plague so many organizations today.

**Authentication procedures typically reserved for Enterprise:** A variety of solutions allow you to publish and evaluate the performance of your DMARC record, but these single-feature companies fail to offer the value so many businesses require. modusGate is the only DMARC-enabled product meant for businesses like yours, while enhanced reporting allows you to maintain your domain's reputation.

## Leverage the benefits of the Latest Protection:
**No matter the technology you use, stopping targeted threats shouldn't be eating up your day.**

The threats have become clear: email is the leading vector for malicious content, hosted malware and social engineering attacks. With modusGate's new protections against malicious URLs, display name phishing and more, along with DMARC implementation and reporting, you can do more than ever before to meet the modern threats that plague businesses and organizations of all sizes looking to use email safely and securely.

# modusGate Email Protection with DMARC
## Authentication and Safety for Your Email Server

## Core Concepts

➤ Advanced Filtering and other features prevent malicious emails from reaching your user inboxes

➤ DMARC is a unique system for email authentication, the adoption of which has not been fully leveraged

➤ 75% of BEC (Business Email Compromise) attacks use Email or Domain spoofing, a practice that can be stopped by an effective DMARC policy

➤ 30% of recipients open phishing emails and 12% click on attachments, necessitating the right defense before these emails reach your users

➤ BEC attacks rose by 42x relative to more common email banking Trojans in 2016 alone

## What You Gain

➤ With modusGate, you get the essential, market-leading filtering you need with advanced threat protection and DMARC capabilities that stop the most popular, fastest-growing attacks in their tracks

modusGate Email Security is backed by decades of experience successfully filtering email and stopping advanced threats. Now including DMARC capability, it also allows your organization to publish records requiring consistency between email headers and sending domains, preventing email spoofing, certain phishing attacks, and protecting you against the most virulent modern email threats.

## What are the benefits of modusGate with DMARC?

### Improve Email Engagement while reducing Email Risks:

**Affordable Protection from Advanced Threats:** modusGate offers Anti-Spam, Anti-Malware, Targeted Phishing Protection, a directQuarantine Outlook Plugin and more to provide your organization's users with the most efficient filtering possible. It's Artificial Intelligence Engine and real-time threat analysis catches 99.5% of malicious emails with a 0% false positive rate, while also protecting you from look-alike domains and other popular avenues of attack.

**Authentication procedures typically reserved for Enterprise-grade solutions:** A variety of solutions allow you to publish and evaluate the performance of your DMARC record, but these single-feature companies create vendor sprawl, while enterprise solutions are too expensive for growing businesses. modusGate is the only DMARC-enabled product meant for businesses like yours.

## Leverage the benefits of a Professional Service:
**No matter the technology you use, understanding DMARC can be a challenge – that's why Vircom is here to help, every step of the way.**

Choosing a DMARC policy to quarantine, reject, or do nothing with emails can have vast ramifications for your time and your company, while ensuring the validity of your DMARC, SPF and DKIM policies can also be a challenge in and of itself. Vircom's modusGate makes it easy to publish and modify DMARC records, while Vircom's security experts make it even easier to configure and improve them!
